EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 14-27 non-elected without traverse. Accordingly, claims 14-27 have been cancelled.

The following is an examiner's statement of reasons for allowance:

Claims 1-13, 28-33 are allowed because none of the prior art alone or in combination teaches or suggests the particular subset of the process steps in removing the sacrificial material and conductive material from an upper surface of the dielectric material layer, depositing a porous dielectric layer over the upper surface of the dielectric material and exposed portion of the conductive and sacrificial material layers; and removing the sacrificial material to form air gaps surrounding the conductive material within the trench and the via.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
